1. Introduction

In emerging areas to achieve development targets in an efficient and effective manner at a faster pace, Government Departments need capacity building by engaging various Individual Consultants. Necessary amendments have been made in Punjab PPRA Rules 2014 which enable Planning & Development Board (P&DB) to short-list/pre-qualify Individual Consultants on yearly basis. In accordance to the instant amendments in PPRA Rules, 2014, all departments of Government of the Punjab may issue Terms of Reference (ToRs) directly (without advertisement) to the Individual Consultants shortlisted by P&D Board to hire services under certain terms and conditions mentioned in Sub-Rules 6-10 of Rule No. 16 of PPRA 2014.

This Prequalification Document (PQD) enlists the criteria for Individual Consultants to be shortlisted in below given area/sector for following categories as per Sub-Rules 6-10 of Rule No.16 of PPRA 2014.

i. Ground water, Hydrology and Integrated Water Management

2. Objective

To support the hydrology related projects through providing services of design, feasibility studies, surveys, geotechnical investigations, third party analysis, appraisal, examination and vetting of project concept /third party validation.

A consultant is a recognized authority or specialist in a specific field, engaged by the Organization in an advisory or consultative capacity. The functions of a consultant are results-oriented and normally involve analyzing problems, preparing documents, or writing reports on matters within their area of expertise.

3. Scope of Work (Tentative)

This scope of work is tentative for prequalification only. The specific duties and responsibilities will be detailed in specific Terms of Reference for each assignment which will be provided by the line

department at the time of issuing TORs as per actual scope of work. Moreover, duration of each assignment will vary in duration and it will be specified in TORs for each individual assignment given by the line department. However, this prequalification does not guarantee award of work by the line department. The tentative scope of work entails:

- Establishment of ground water data base in GIS and its validation;
- Collection of water samples to assess the quality, quantity and its drawdown;
- Ground water assessment using GIS and remote sensing techniques;
- Review and check the hydrological, topographic and hydrogeological survey maps and update the same if required;
- Development of a ground water model of the project area and use numerical models for simulation of aquifer behavior like MODFLOW or similar codes.
- The presentation as, as and when required during the whole period of assignments by the consultants on multimedia to the satisfaction of the client;
- Review the project implementation schedule every month and take revision
- Update the plan if required;
- Review and check the topographic survey maps and update the same if required;

4. Eligibility Criteria

Following are the details on the basis of which Individual Consultant will be shortlisted:
